DETAILED ACTION

Continued Examination under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 09 November 2004 has been entered.

Citation as of Interest

2. JP 2003145001A is cited as of interest for showing the immersion coating of photoreceptors that have recesses on an end. Under MPEP 901.05, subsections (II)(C) and (V), its publication date is 20 May 2003. It is not available as a reference.

Reasons for Allowance

3. The following is an examiner's statement of reasons for allowance:
4. The base claim of the case is claim 12. It can be summarized as follows:
- Claim 12 covers a coating method for a photoreceptor comprising the steps:
- a) providing a single piece substrate including a deposition region and an optional uncoated region, with the deposition region including a level intermediate region located between a first end region and a second end region, wherein the first end region has a first recessed surface portion that increases the surface area of the first end region, with the first recessed surface portion being recessed below the level intermediate region,

b) dip coating a layer of coating solution over the first end region, the intermediate region and the second end region in the recited sequence, wherein the dip coated layer comprises materials for a photoreceptor layer, and

c) drying the dip coated layer to produce the photoreceptor layer, with the layer being part of the photoreceptor.

5. The examiner has found no applicable prior art that teaches or suggests coating methods that have all of the features of claim 12.

6. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
